

Children today are living in a **digital age**, but are they really **prepared** for it?

The digital **revolution** brings with it with so many **challenges and opportunities**.

It can **damage their future** or create **exciting possibilities**. We must **choose now**.

## DIGITAL CITIZENSHIP PROGRAM

- **Digital Education**- Be an effective and life-long learner
- **Digital Safety**- Personal online information, phishing, password safety
- **Digital Communication**- Monitor and influence your digital footprint
- **Digital Laws**- Digital copyright, pirating, legality of content posts
- **Digital Entertainment**- Gaming issues and opportunities
- **Digital Etiquette**- Email, IM and Social media professionalism
- **Digital Presence**- Establish your online identity and create a personal website

## ACT LEARNING APPROACH

- Active learning using ACT pedagogies
- Interactive videos
- Quizzes
- Gamified badges and "egg" hunts
- Embedded activities
- Discussion forums
- Leaderboards
- Lots of extra surprises

## ASSESSMENT

**BP** Badge Points

**QP** Quiz Points

**FP** Final Assessment Points

## TECHNOLOGY

The Digital Citizenship course is about learning how to be effective in the digital age. As such, the entire course is delivered online through our specially designed platform that guides students through their learning experience.

## UNIQUE OPPORTUNITY

This unique Digital Citizenship program is designed by Dr. Craig Blewett. He has a PhD in education technology and together with his team has impacted teachers and students around the world with his effective, innovative approaches to technology.

*"Genius" "Epic" "Life-saving"  
"Every school needs to do this"  
"Inspirational"*

Ensure your students are responsible, effective Digital Citizens
